

Company Profile

Holiday Homes Inc. is the subsidiary company of BJS Development Corporation (BJSDC), which specializes in developing medium-density low-cost housing projects.

As a passionate builder of communities and estates, Holiday Homes Inc. exists to fulfill the desire of what is “always close” to every Filipino’s heart—affordable homes where they can spend beautiful memories with the whole family, be part of a growing community, and have easy access to necessities.

As a start-up property development company, Holiday Homes Inc. has a big vision and a heart for families in Southern Luzon.

Following the footsteps of its parent company, BJSDC that has an established reputation in buying, selling, leasing properties, and a successful developer of socialized housing units, Holiday Homes Inc. is offering the most affordable and reasonable priced housing units fit for both starting and growing families.

BJSDC’s successful projects are Holiday Homes I (18.8 hectares), Holiday Homes II (9.4 hectares and over 1,000 homes developed), and Holiday Homes III (8.6 hectares) that are strategically located in the First Cavite Industrial Estate and Gateway Industrial Park—world-class industrial subdivisions and near the Aguinaldo Hi-way, Governor’s Drive.

The success of these projects eventually branched out into a strategic alliance with Philtown Properties Inc., a real estate company known for developing residential condominiums, industrial parks, and technology parks. Holiday Homes Inc. is developing the Hacienda del Sol and Plantacion Del Sol estates located in Tanauan, Batangas.

It is committed to its responsibility to be a community builder and seek to fulfill what’s always close to every Filipino: a home with the family.
